

# Frameworks to watch in your sector

Jul - Dec 2023

Framework agreements are being used more and more to procure goods & services. The trouble is actually finding the right frameworks to begin with. Teams often waste hours searching for frameworks, and risk missing ones which cater to your specific needs.

In this guide, we've harnessed Tussell's framework analytics to uncover which frameworks were used to award high-value work between July and December 2023, helping you narrow down which frameworks to utilise when you next go to market.

## IT & Digital

CPV: 72000000, 48000000

Contracts awarded between 01/07/2023 - 31/12/2023

<u>Framework name</u>	<u>Value of call-off contracts</u>	<u>Volume of call-off contracts</u>	<u>Top supplier (by contract value)</u>
G-Cloud 13	£1.18b	642	
Technology Services 3	£363m	44	
SWAN Re-procurement	£228m	2	
Digital specialist and Programmes	£226m	24	
Technology Products and Associated Services	£185m	138	

Want to see which buyers are using these frameworks?

*These frameworks were identified using Tussell's market intelligence platform. Frameworks are ranked based on the value of identified call-off contracts matched to said framework. Only contracts awarded between 1st July 2023 to 31st December 2023 are included. Sectors are defined by contract CPV codes and/or contract keyword searches. Due to the lag in contract award publication, the value and volume of call-off contracts may be understated in some cases.
